Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed ways to overcome the claim objections, Applicant suggested calling the audio effects "audio effect source" which appears to overcome this objection. Applicant does not agree with the U.S.C. 101 rejections however, no agreement could be reached regarding these and further consideration will be required. Also discussed differences between the Borgen (mainly Fig. 14-1) and Abrams (mainly Figs. 9 and 10) combination and Applicant's intent to claim Fig. 6. It appears to the Examiner that a claim providing significant detail of Applicant's Fig. 6 would overcome the prior art but would require further search and or consideration to determine allowability..
